Subject: RE: Question on AG referrals

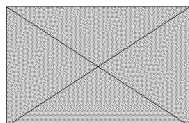

Thanks for getting back with me. So to confirm, there have been two referrals that went to EPC since the workplan started. One (Van Beek) went ahead to AG and the second (Vander Vedt) was rejected by EPC.

I was wrong the other day when I said there had not been an EPC rejection. Ed reminded that we had one rejected by the EPC. The EPC did not refer Jeremy Vander Vegt / Boerderij De Veldhoek LLC. We issued an order after. The feedlot was sold and Mr. Vander Vegt disappeared so we were unable to collect. Kelli

Hey Kelli, hope you had a happy holiday season and are staying warm up there. If not, a little IA petition might warm you up. I was wondering if you could tell me how many CAFO cases were referred to AG but were rejected by the EPC since workplan was signed. I seem to recall having a conversation about the number of referrals to AG but couldn't remember if we talked about the number that were rejected by the EPC.

Thanks,
